

Independence Series

Independence Glass to Glass 90° Hinge

Part Number: IND-90

The Independence Hinge glass to glass 90 is for showers that have a 90 degree turn in the threshold and the door is needed to be hinged from the panel rather than the wall. This hinge provides another option for how to position the door. it is mostly used in small bath spaces, where the door cannot be hung from the wall. Independence Hinge has a beveled edge and radius corners for a conservative design.

SPECIFICATIONS:
